INSPECTION CERTIFICATE

Industrial Safety Department

QUALICONSULT Ref. nº 000D96311800013

Certificate nº IC01- 000D96311800013R0

- Name and address of the factory:

TECNOLOGIA NAVARRA DE NANOPRODUCTOS S.L.(TECNAN)
Área Industrial Perguita, C/A Nº 1
31210 Los Arcos – NAVARRA (SPAIN)

- Product and/or component manufactured & manufacturer designation:

Vetrosmart

VETROSMART is a transparent solution with high repellence properties to water, which forms a protective barrier on the glass, preventing the accumulation of lime and dirt and facilitating its elimination by the action of water drag.

VETROSMART is suitable for applications on bathroom screens, windows, mirrors or other vitreous surfaces (indoor and outdoor glass).

- Codes, standards, project specifications, procedures references:

1. VETROSMART product datasheet
2. Testing procedure for 10 years simulated lifetime nº 1042018VET Rev.00, including:
 - ✓ Accelerated aging by UV light test procedure
 - ✓ Chemical resistance test procedure
 - ✓ Thermal shock test procedure
 - ✓ Abrasion test procedure

After witnessing the corresponding resistance tests, performed as per applicable **test procedure nº 1042018VET Rev.00** on **July to October 2018**, with a satisfactory result,

after checking and reviewing the corresponding test report certificates with nº **075171-1(M1)**, **075171-2(M1)** and **075171-4(M1)** dated on **October 11th, 2018**, and test report certificate nº **075171-3** dated on **September 17th, 2018** with a satisfactory result,

the undersigned, QUALICONSULT Inspector, certifies that product VETROSMART meets the applicable requirements and passed satisfactorily the corresponding testing.

QUALICONSULT certifies that VETROSMART product has a durability of 10 years under accelerated aging procedure.

*This approval remains valid since no significant changes are made to the facility, its production rate and its quality system.
