

Protect your shower screen from limescale and dirt with: **Vetrosmart**

WHAT IS IT?

The products within the Vetrosmart range are **hydrophobic solutions, based on nanotechnology, which provide glass with high repellent properties to water and other liquids, so that they facilitate the cleaning of dirt and minimise limescale deposits.** In short, they form an invisible protective film that repels liquids, facilitating their removal and evacuation.

Specifically, the range is formed by 3 products of similar performance, but with different durability: 1. Vetrosmart, 2. Vetrosmart Economy and 3. Vetroeasy. These treatments have been **specially designed for any indoor or outdoor glass surface**, such as shower screens, windows, mirrors, etc.

VETROSMART
*10 YEARS

VETROSMART ECONOMY
*5 YEARS

VETROEASY
*3 YEARS

FEATURES

- ✓ **Hydrophobic and anti-limescale surface treatment** for glass, which protects and minimises dirt and limescale deposits.
- ✓ Specially recommended for the **treatment of any indoor and outdoor glass surface**: shower screens, windows, mirrors, etc.
- ✓ High repellency to water and other liquids thanks to its **hydrophobic property**.
- ✓ **Easy-to-clean**: reduces cleaning times substantially, keeping surfaces cleaner for longer.
- ✓ **Easy-to-apply and high performance**: 50-60m²/L.
- ✓ The coating is **completely transparent**, it does not modify the aesthetic conditions of the glass at all.
- ✓ **High chemical and abrasion resistance**, according to UNE-EN 14428 and ISO 11998:2007, respectively. Resistant to common cleaning products.
- ✓ **High certified durability**: 3-10 years in new glass, depending on the product*.

PRODUCT RANGE

1. **VETROSMART:** Hydrophobic protector of optimum performance; top quality alternative. Certified durability of 10 years on new glass.
2. **VETROSMART ECONOMY:** Hydrophobic protector of excellent performance; great alternative in terms of quality-price. Durability of 5 years on new glass.
3. **VETROEASY:** Very high-performance hydrophobic protector, offering quality at the most competitive price possible. Durability of 3 years on new glass.

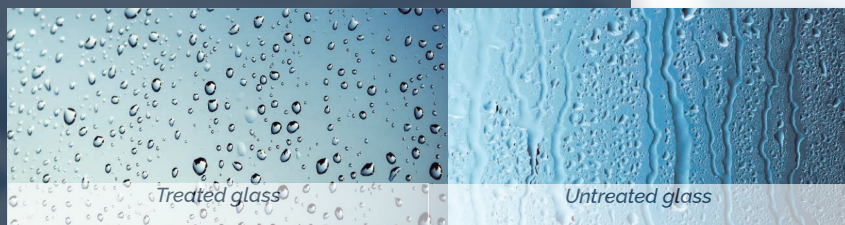

- Available in 1L, 5L and 25L.

- Available in 125ml, 1L, 5L y 25L.

- Available in 1L, 5L y 25L.

HOW TO USE IT

1. **SURFACE CLEANING:** The surface must be completely clean and dry before application of the product.
2. **APPLICATION:**
 - Manual: The liquid can be applied directly onto the surface to be protected with a hand sprayer or directly onto the cloth. Then spread the product evenly over the entire surface. Immediately afterwards, polish off any excess product with a dry cloth, ensuring it is completely transparent.
 - Spray gun: Apply the product evenly over the surface with any spray gun. It can be applied either in one layer of higher amount of product or in two thinner layers.
3. **DRYING:** Ultra-fast drying product. It is possible to handle the treated glass in a short period of time. The hydrophobic effect can be seen after approximately 15 minutes; however, it is not recommended to subject the glass to abrasion or intensive cleaning for 24 hours.

CERTIFIED DURABILITY

Vetrosmart has been certified for 10 years of durability on the basis of a rigorous accelerated testing procedure consisting of tests for resistance to UV ageing, chemical products, thermal shock and abrasion cycles.

This certificate was issued by QUALICONSLT, an independent entity that guarantees total impartiality and has numerous governmental and accreditation certifications.
